

Instructions for correct fitting of your Disposable Pro Trainer Tag

Check your timing chip and make sure that it matches your race number. Our timing chip for running is provided on a self adhesive waterproof strap. This timing chip will be supplied printed with your number. The number should match your race number.

Step 1 & 2

Take the strap and thread through either 1 or 2 laces with the logo and your race number facing outwards as illustrated below.

Step 3

Peel the 3M sticker off and stick the 2 tabs together using the blue square as a guide, ensuring that you have created a loop.

Step 4

Rotate the strap so your race number is visible from the front and the Blue Square part of the timing chip is against your trainer, the shoe tag should now be attached forming a loop through the shoe lace with the race number facing upwards. You can tighten your laces to ensure the tag does not rotate around.

You must ensure that your timing chip forms a loop, if you flatten the chip in anyway you will reduce the effectiveness of the chip and may not get any times.

Failure to attach your timing chip correctly could affect your results, please follow the instructions above.

10K Race Assembly Point

Runners are to assemble at the Leisure Complex. As in previous years we ask runners not to proceed to the 10k Race Start until requested, as traffic must be stopped in the town to accommodate the large numbers of starters. Runners should position themselves according to expected finish time at the race start - signage will indicate this.

Transfer Requests

If you are unable to run (eg due to injury) and wish to transfer your number to someone you know, please use the edit facility on the sports entry systems website. Please note you will need to use the same e-mail address that you used when you signed up and your unique reference number. Any financial arrangement relating to a transfer is a matter of the two parties to agree and Beverley AC will not issue refunds. The deadline for receiving transfer requests is Monday 8th May 2017. Under no circumstances should a runner be given your number without undertaking this transfer process as this might cause incorrect allocation of prizes and could cause confusion if an accident or emergency were to occur.
